

## OXYGEN INJECTION SYSTEMS

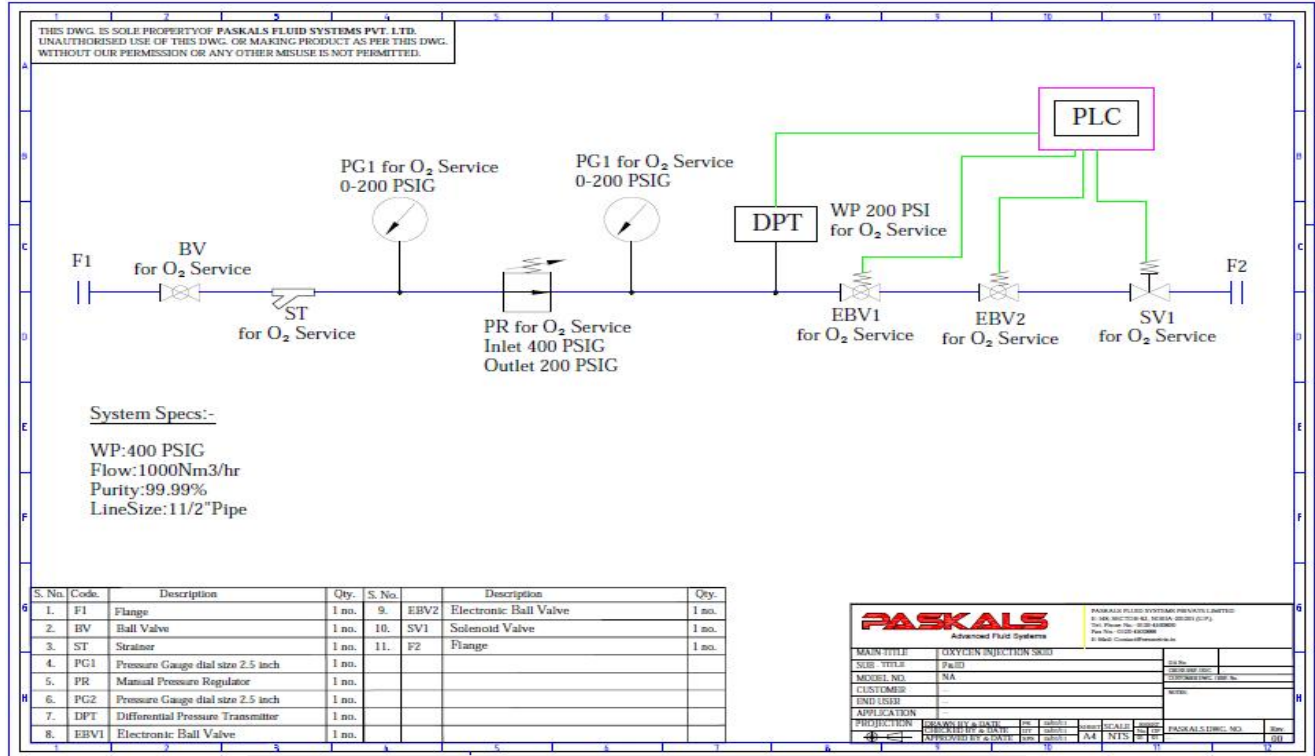

**“A MUST HAVE FOR OXYGEN PROCESS INJECTION”****“Portable Oxygen Injection Systems”**

“Due to their legendary quality & reliability under the toughest worldwide conditions combined with excellent price quality ratio the compact line High pressure Low Flow & Low Pressure High Flow Oxygen Injection Packages (For Process Applications), from Paskals are first choice of Metallurgy, R&D, and Medical Professionals.”

In technical collaboration with

**SYSTEM DETAILS\***

**MAJOR COMPONENTS\***

<b>BOM FOR OXYGEN INJECTION SKID</b>				
S.No.	Component	Specification	Make	Qty
1	Flanges	SS 304as per ASME/ANSI Standards	Standard	2
2	Ball Valve	DN 25mm ,WP 200 Psi,O2 Service	James burry ,Finland	1
3	Strainer	Brass ,20 Micron,O2 service	Muller Steam USA	1
4	Pressure Gauges	Dia2.5",200PSIG,1360kPa	WIKA	2
5	Union	SS 304	Standard	2
6	Pressure Regulator	Inlet 400 Psi and Outlet 200 Psi	Tescom/GO/Standard	1
7	Pressure Sensor	WP 200 Psi, Range 14 Kg/cm2	Aschroft,Germany	1
8	DP Transmitter	Rose mount	Emerson ,Germany	1
9	Solenoid Valve	WP 200 Psi,Oxygen service	Magnatrol Valve ,USA	2
10	Metering Valve	WP 200 Psi,Oxygen service	James Burry, Finland	1
11	Flexible Pipe	WP 200 Psi,Oxygen service	Parker USA	2
12	Pipe	SS 304	Standard	10 m.
